Analysing Batters

In partnership with

Generation Alpha – Coaching Influences/Tactics

Video Angles – Front On

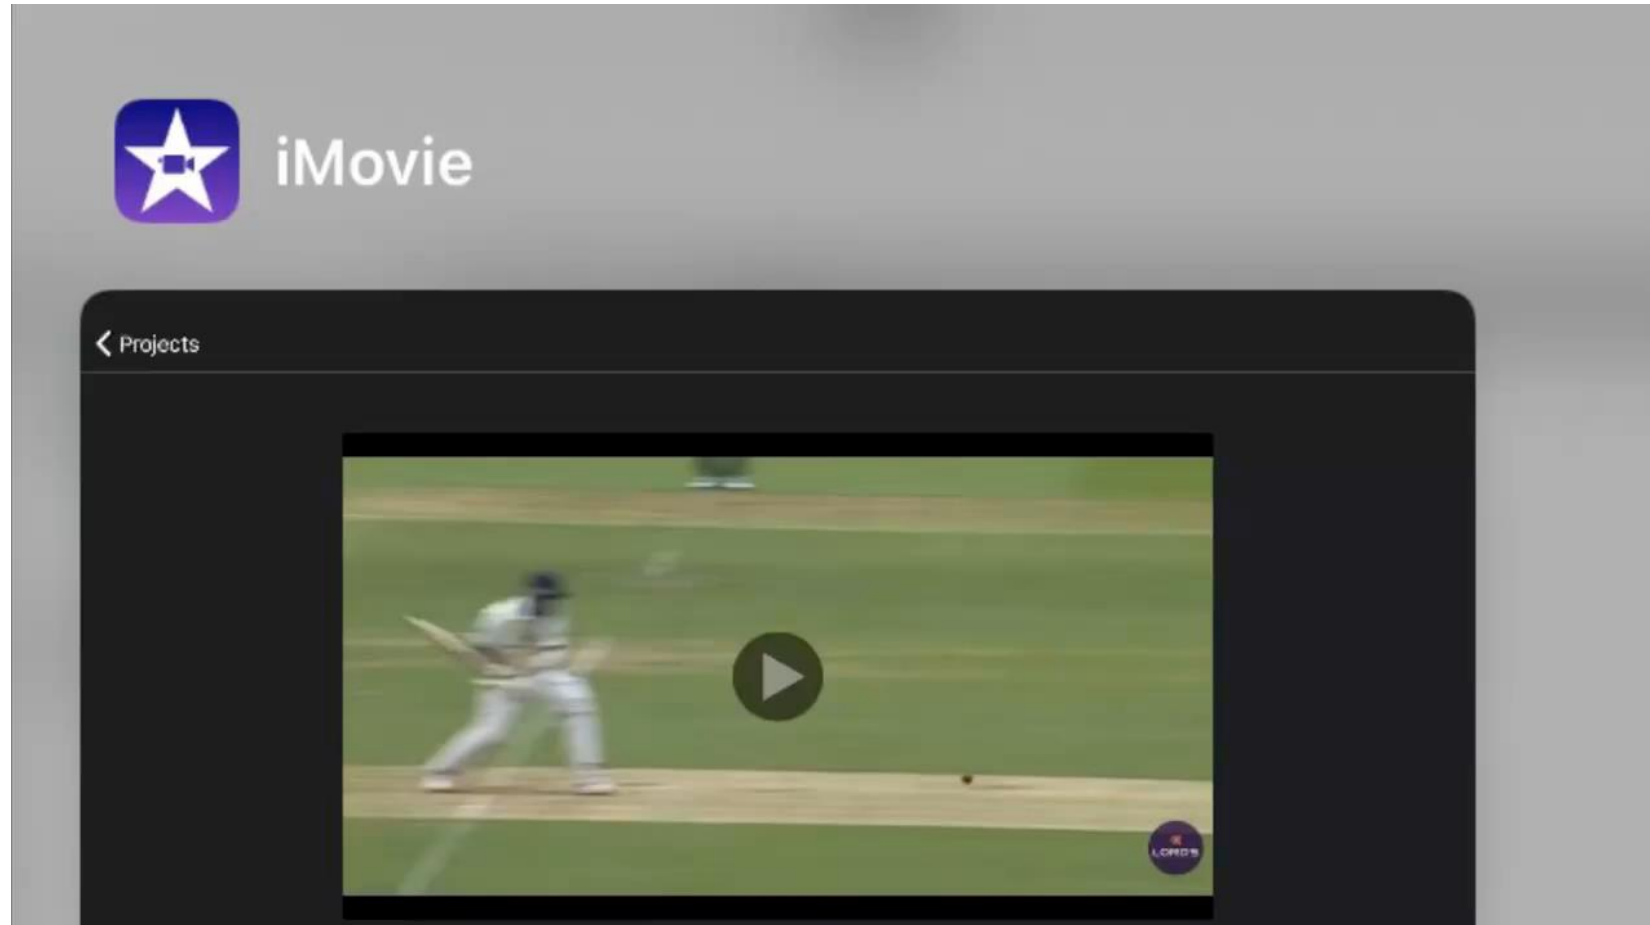

- Balance in set up
- Balance at POR
- Balance at POC
- Alignment (RAO Leggy)
- Body Alignment at point of impact (in relation to the ball) vs intended outcome
- Bat Path/Alignment
- Line of ball
- Length perception
- Deviation indicator

- Back Swing Height
- Width of base
- Contact Point
- Weight distribution
- Follow through range

Zak Crawley – Troubles in Test Cricket – Build the Picture

Zak Crawley - Analyse the imagery (Technique)

- **Work on balanced position at POR (reduce back knee bend/head and foot alignment).**
 - This will help balance & ability to move forward from stance to length/full ball
 - More dominant on the ball
 - Intercept the ball further down the wicket when defending (outside half instead of thin edge)
 - More consistent judgement of line....does a leave still work under “Bazball?”
- **Keep shoulders (and hips) sideways for longer vs Red Ball**
 - Enable bat to move in a straight line to the contact point rather than curved one
 - Quieten the Hands down when defending – reduce pushing
 - Start with underarm throws progressing the drill with difficulty when appropriate
 - Create different angles to challenge shoulders
 - Finishing with new balls (or swinga/wired ball) at top pace in match scenarios with realistic consequences

Split into 8 Groups – Number your Groups 1 to 8 please?

- Your job is to use your mobile phones to gather vision, respected opinion and data on your assigned player.
- The England Opening Batters, your role as a coach is to build a picture of “why” your batter failed in Test cricket and then build a simple IDP which readies them for a potential International recall within “Bazball’s” England Test Team.
- The White Ball groups are building an awareness building visual presentation or film for your U14 County side.

- Group 1 & 2 - Dom Sibley (Performance “why” & IDP)
- Group 3 & 4 – Rory Burns (Performance “why” & IDP)
- Group 5 & 6 – Alex Lees (Performance “why” & IDP)
- Group 7 & 8 – Jos Buttler (what makes him so good?)

I give recommendations: You make decisions

- **Create departments within your coaching team**

- Lead Batting Coach (overall strategy and delivery back to group)
- Data Mining x 2 (HowStat, Cricviz Blogs, CricViz Twitter, CricViz analyst Twitter, any others you find, Respected Coaches view)
- Video Mining (Youtube, Sky Sports)
- Someone to coordinate creation of video or presentation on a device
- We have.....?? Minutes before presentation.
