- d. A team's average run rate is calculated by dividing the number of runs scored in its innings by the number of legitimate balls received during that innings.
 - i. If the team batting first is dismissed in fewer than the number of overs allocated for their innings, the calculation will be based on the number of balls that the team was scheduled to receive and not on the number actually received.
 - ii. If the team batting second is unable to receive all their allocated overs, the calculation of their average run rate will be based on the number of legitimate deliveries actually received by them during their innings.
- e. The average run rate can be calculated to any number of decimal places and a tie can only be achieved if the average run rates are identical.

14. SAFEGUARDING

Please read the below information regarding safeguarding and player eligibility.

All Captains must be DBS checked

Making the step up from junior to open age group cricket is an important event in any player's cricket experience. The player's safety, personal development needs and overall cricket experience must be considered, their welfare is paramount.

Players who are selected in **Wales** squads in spring for a summer squad for that season are NOT eligible to Women's Softball cricket.

Players who are selected in **Regional** squads in spring for a summer squad for that season are eligible to Women's Softball cricket. That is providing they are at least 11 years old, are in School Year 7 on 1st September in the year preceding the season and have **written parental consent to play**. This means children who are in **Regional** squads, are able to play Women's Softball cricket if they are in an U12 age group and are a minimum of 11 years old on 1st September of the year preceding the season.

Club cricketers who are not in Welsh or Regional squads must wait until they reach the U13 age group, be in Year 8 and be 12 years old on 1st September of the preceding year before being able to play in any Women's Softball cricket. As before **written parental consent is required for these players**.

To be clear, selection of a child of tender age to adult cricket is a potential risk and such a decision should not be taken lightly. Each case must be determined on an individual basis taking into account the players ability and stage of cognitive and emotional maturity to take part in Women's Softball cricket.

Children who are in Year 9 and 13 years of age on 1st of September of the preceding year are eligible to play without written parental consent and this form need not be completed.

Written consent forms must be completed in advance. This can be found [here](#).

The minimum age restrictions MUST be followed.

15. Inclement Weather

There is a general presumption that in the event of inclement weather, common sense and agreement between the clubs will prevail to ensure that the safety of players is upheld.

100 Ball - Main Competition

- A) It will be the responsibility of the host team club to decide whether the match should start if the playing area has been affected by inclement weather.
- B) The number of overs will not be reduced until 30 minutes has been lost.
- C) Weather interference before the match – 2 overs will be taken from the aggregate overs for every 6 minutes lost after the initial 30 minutes.

- E) The number of overs allowed by each bowler and faced by each batting pair will be reduced in proportion to the total number of overs agreed.

- B) Full details of notable performances including full names should be included.

6. Points Scoring

The winning team shall be the side scoring the higher number of runs after deduction for the fall of wickets:

Women's Welsh Cup Rules 2024
