STUART CANVAS
GROUP

For over 50 years, we've been protecting the game. With decades of hands-on experience, we're a trusted name in sports ground solutions, bringing proven knowledge and reliability to every project.

MOBILE CRICKET COVERS

Quick & easy to move – Wheeled, lightweight design lets one or two people cover the pitch fast.

Superior protection – Domed shape and built-in gutters keep rain off the wicket and prevent puddling.

Durable build – Strong steel frame with up to a 10-year structural warranty.

Pitch-friendly – Allows airflow, avoids turf damage, and maintains consistent bounce.

Customisable – Add side sheets, run-up covers, and club or sponsor branding.

Time-saving – Faster to deploy than flat sheets, meaning less downtime and better match continuity.

Branding - We now offer full-colour, high-resolution printing using our in-house 3m roller UV printer. This allows your club, school, or sponsor logo to be printed directly onto your mobile cricket cover tops an ideal way to showcase branding while protecting your pitch.

CRICKET FLAT SHEETS

County Cricket Flat Sheet

Our County Cricket Flat Sheet is a lightweight, 250gsm UV-stabilised, and fully waterproof cover that protects and prolongs the life of your cricket square. Designed for ease of use, it delivers reliable pitch protection from village clubs to professional county grounds.

Test Cricket Flat Sheet

Our Test Cricket Flat Sheets are made from 350gsm textile-reinforced PVC, combining UV resistance with light transmission to protect the pitch, prevent scorching, and support healthy grass growth at all levels of play.

Classic Cricket Flat Sheet

Our Classic Cricket Flat Sheets are semi-translucent, UV-resistant covers made from durable 350gsm PVC. They allow sunlight to reach the grass while providing reliable pitch protection for all levels of cricket, from village clubs to county grounds.

Pro Tech Cricket Flat Sheet

Our Pro-Tech Flat Sheets are ultra-lightweight, breathable 165gsm covers, designed for professional grounds to provide easy handling, reliable protection, and improved turf health.

CRICKET BATTING CAGES

County Batting Cage

Ideal dimensions for versatile use
Measuring 7.5 m long × 3.6 m wide × 3 m high.

Effortless manoeuvrability
Equipped with 4 front swivel caster wheels and 2 rear fixed puncture-proof wheels.

Robust, long-lasting construction
Built using galvanized box-section steel.

Optional Vermin Skirt for Added Protection. An additional vermin skirt can be fitted to the base of the cage netting.

Test Batting Cage

Exceptional Size & Spacious Design
Measuring 11.2 m long × 3.6 m wide × 3 m high.

Seamless Mobility & Secure Positioning. Equipped with 8 swivel wheels, six at the front and two fixed puncture-proof wheels at the back.

Optional Vermin Skirt for Added Protection. An additional vermin skirt can be fitted to the base of the cage netting, preventing pests from entering and extending the life of the net.

CRICKET SIGHT SCREENS

Our Cricket Sight Screen Range

As one of the UK's leading cricket sight screen suppliers, we manufacture a full selection to meet every ground's needs:

Wooden Sight Screens

Classic slatted design, available in black or white, offering excellent airflow and a traditional look.

Polypropylene Sight Screens

Lightweight, durable, and easy to move; supplied with wheeled bases for convenience.

Roller Mesh Sight Screens

Ideal for windy areas; maintain visibility while reducing wind load.

Tracked Sight Screens

Space-saving systems mounted on rails for easy one-person movement.

Rotating Black & White Mesh Sight Screens

Combining flexibility with practicality, these models feature mesh panels on both sides, allowing quick colour changes while minimising wind resistance.

Floating Tracked Sight Screens

A modern development of the tracked design, these floating systems allow effortless movement across uneven ground.
